Subject: Cambridge Phase 4  
Work Request# 3821497  
N Lake Dr to N Terrace Ave (N Wahl Ave to E Belleview Pl)

Dear We Energies Customer:

As a part of our continuing effort to improve service and reliability, we will soon be rebuilding overhead electric facilities in your area. This work will involve replacing poles, overhead wires and other equipment along the route. Please be assured that we will restore any areas disrupted by our construction once the work is complete, as weather permits.

Before construction begins, tree pruning and brush removal may be needed to provide adequate clearance around our facilities. When applicable, you will be contacted by a representative to discuss necessary tree trimming or brush removal.

For your safety, we will have Diggers Hotline locate underground utilities including natural gas, electric, telephone, cable television, sewer and water. **We also need your help to make sure we don't damage any of your privately maintained facilities.** To avoid damage to your facilities – such as an underground sprinkler system, electric, propane, sewer and sump pump lines, well, septic system, yard lighting, etc – please notify us of their location. **It is very important that we are aware of these facilities. We Energies and/or its agents are *not* responsible for damage to your facilities that we are *not* aware of before our work begins.**

To ensure the safety and efficiency of our construction crews, you may experience service interruptions while the work is being done. We will notify you prior to any scheduled service interruptions. We apologize for any inconvenience this may cause.

If you have questions, please call me at 262-502-6848 or email [Todd.Miller@we-energies.com](mailto:Todd.Miller@we-energies.com) and reference the work request shown above. Thank you for your cooperation and understanding as construction takes place in your neighborhood.

Sincerely,

A handwritten signature in black ink that reads "Todd Miller".
